

What are browser cookies?

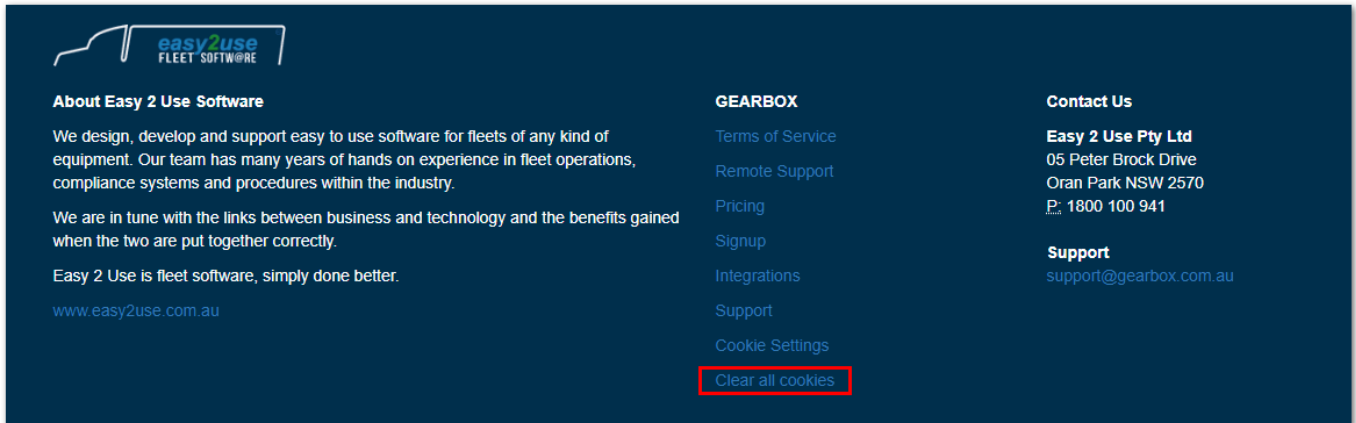

Browser cookies are small pieces of data sent from a website and stored on the user's computer by the user's web browser while the user is browsing. Browser cookies keep the user information such as the username, interests, Password Remember Option.

At times browser cookies become corrupt and cause web pages to not load or function correctly, so they need to be cleared. See the steps below to clear browser cookies.

Log out of Gearbox or browse to www.gearbox.com.au and scroll down to the footer of the page.

The screenshot shows the Gearbox website interface. At the top, there is a navigation bar with the Gearbox logo, links for Features, Integrations, and Pricing, a search bar containing 'gearbox.gabriel', a login field with a password mask, and a 'Login' button. Below the navigation bar, the main heading reads 'Gearbox is software for better fleet management.' followed by the subtext 'Forget all the spreadsheets and complicated, outdated, clunky software. Gearbox is fleet maintenance and compliance simply done better.' A blue button below this text says 'Try it free for 7 days'. A red box with the text 'Scroll down' and a red arrow pointing downwards is positioned on the right side of the page. Below the main content, there are three device screens displaying the Gearbox application interface. The laptop screen shows a 'Services Due Km/ Miles' table with columns for Type, Piece #, Range, Odometer, and five columns (A-E) of data. The tablet screen shows a 'S-5518 eJobcard' for an engine with a list of tasks and their completion status. The smartphone screen shows a 'Prestart' checklist for 'Wheels & Tyres' with a 'Check all tyres for tread, damage and inflation' instruction and 'Fail', 'OK', and 'Pass' buttons.

At the footer click on *Clear all cookies*

The screenshot shows the footer of the Easy 2 Use Software website. It features the company logo on the left, followed by an 'About Easy 2 Use Software' section. In the center, there is a 'GEARBOX' menu with several links, including 'Clear all cookies' which is highlighted with a red box. On the right, there is a 'Contact Us' section with company details and a 'Support' section with an email address.

FLEET SOFTWARE

About Easy 2 Use Software

We design, develop and support easy to use software for fleets of any kind of equipment. Our team has many years of hands on experience in fleet operations, compliance systems and procedures within the industry.

We are in tune with the links between business and technology and the benefits gained when the two are put together correctly.

Easy 2 Use is fleet software, simply done better.
