

## Exporting Data from Gearbox Tables

To export data from Gearbox, simply navigate to the page you wish to export data from. In this example we will be exporting data from the vehicles page.

Click Vehicles (1) on the left-hand side of screen or click the Maintenance drop-down (2) and click Vehicles (3):

Select either CSV or Print (1) to export the currently view-able data and columns – selecting print will provide a PDF file that can be printed while CSV will provide a CSV file-type that can be imported into Excel:

This feature is available on all screens within Gearbox
