

IOR Petroleum have a customer portal that allows fuel data to be downloaded in native Gearbox format.

To configure, add the Gearbox Fleet Number on the Card Editor screen in IOR Petroleums Customer Portal:

The screenshot shows the 'Card Editor' interface in the IOR Customer Portal. The form contains various fields for card configuration. The 'Gearbox Fleet No:' field, containing the value 'PM/01', is highlighted with a red rectangular border. Other fields include 'Card Number' (139), 'Daily Site Limit' (1000.00), 'Customer Requisition No.', 'Active?' (checked), 'Card Assignee', 'Requisition Date' (Select a date), 'Veh Rego' (190 L/N), 'Pin' (3395), 'Date First Exported' (04/01/2013), 'Veh Type' (Kenworth T350 (Broken Hill)), 'Off Road Use?' (unchecked), 'Fuel Card', 'Customer Department' (N/A), 'Diesel?' (checked), 'AvGas?' (unchecked), 'AdBlue?' (checked), 'JetA1?' (unchecked), and 'Unleaded?' (unchecked). A 'Comments' section at the bottom contains a text box with the following text: 'activated 30/6/11 running tank tag Truck purchased from Coffisons 30/6/11; first tag replaced, replacement posted 13/7.'

Then use the [Export GEARBOX CSV](#) button on the portal index to download the required data:

# Import IOR Petroleum Fuel Data

IOR Customer Portal Home Contact User: demo Log off

## IOR FUEL TRANSACTIONS 'ABCD Transport'

From Date: 11/03/2016 To Date: 10/05/2016 REFRESH Print Table Export CSV Export CardGroup CSV Export TSV Export Gearbox CSV

Include customer name in exports

Date/Time(24h)	Site	Card	Rego	VehicleType	Product	Odometer	UserID	Quantity (Litres)
<b>55 Records</b>								<b>Total: 5,994.53</b>
10/05/16 11:42	Roma	53404	OB-4	Nissan Patrol	Diesel	255,104	53404	58.34
09/05/16 09:54	Roma	53403	OB-3	Nissan Patrol	Diesel	295,596	53403	77.23

In Gearbox, go to Fuel, click on import and upload the file without having make any changes to the file format.

Thankyou to [IOR Petroleum](#) for adding this feature:-)
