

Add or Edit Vehicle Registration Warning Intervals

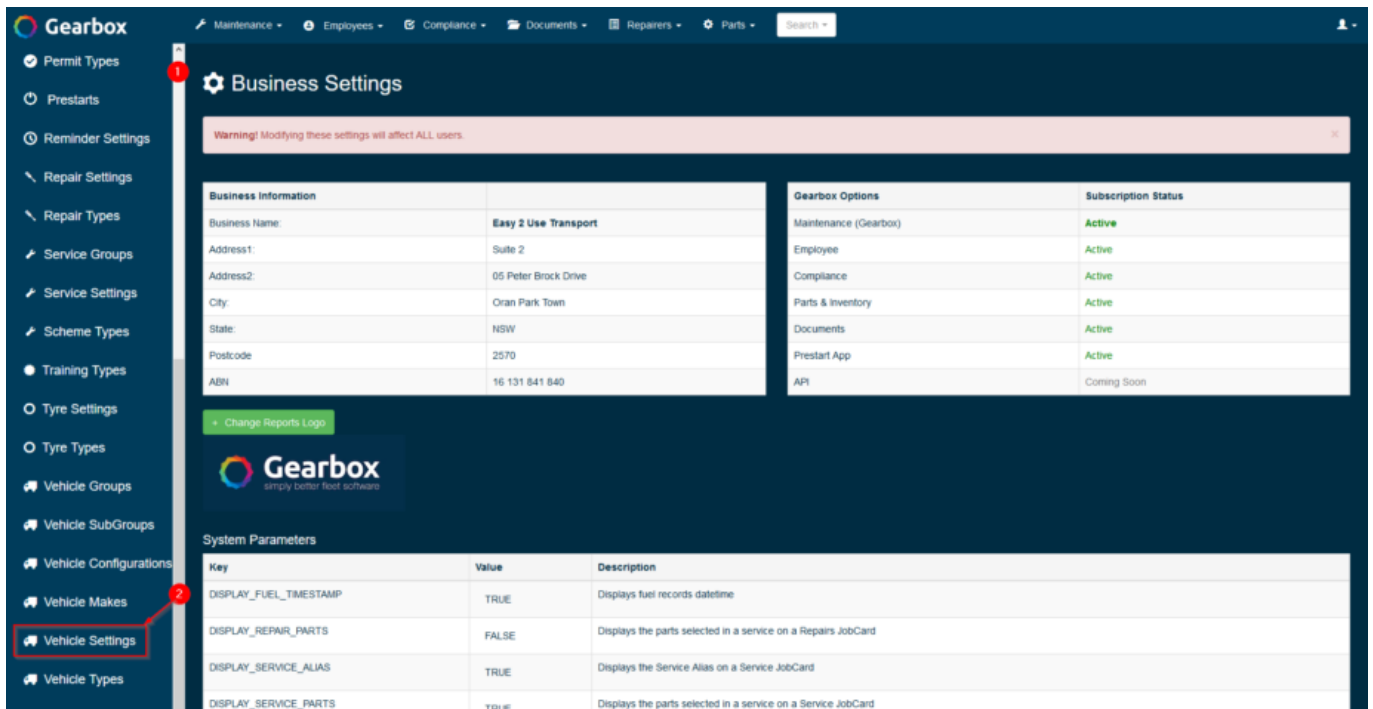

To edit Vehicle Registration Warning Intervals, click on your username at the top-right of the screen (1) and then click Settings (2):

 If "Settings" is not visible in your menu, contact your system administrator to request access.

On the left-hand side of the screen, use the scroll bar (1) to scroll to the bottom of the list. Once you have reached the bottom you will see Vehicle Settings (2), click on Vehicle Settings:

Add or Edit Vehicle Registration Warning Intervals

You can then modify Vehicle Settings by clicking on values in the Value column (1). The values will turn blue when you place the mouse over them. You can also create your own labels by clicking on the Spare Fields in the Value column and naming them as you wish (2).

Vehicle Settings

Key	Value	Description
REGISTRATION_RED	14	Number of days before a registration is due that the reminder will turn red
REGISTRATION_YEL	30	Number of days before a registration is due that the reminder will turn yellow
SPARE01	ETAG	Label for Vehicle Spare Field # 1
SPARE02	Phone	Label for Vehicle Spare Field # 2
SPARE03	Spare Field 3	Label for Vehicle Spare Field # 3

In the above example, registrations will turn 14 when due in 14 days or less and 30 when due in 30 days or less. The red colour will always override the yellow colour.

Changes you make are automatically saved after leaving the editor (the button will no longer be blue).
