

To edit Vehicle Reminder Settings, click on your username at the top-right of the screen (1) and then click Settings (2):

 If "Settings" is not visible in your menu, contact your system administrator to request access.

On the left-hand side of the screen, use the scroll bar (1) to scroll to the bottom of the list. Once you have reached the bottom you will see Reminder Settings (2), click on Reminder Settings:

Add or Edit Vehicle Reminder Settings

You can then modify settings by clicking on values in the Value column (1). The values will turn blue when you place the mouse over them:

🕒 Reminder Settings

Key	Value	Description
REMINDERS_RED_DAYS	5	Number of days before a reminder is due that the colour will change to red
REMINDERS_RED_HOURS	25	Number of Hours before a reminder is due that the colour will change to red
REMINDERS_RED_KMS	1000	Number of Kilometers/Miles before a reminder is due that the colour will change to red
REMINDERS_YEL_DAYS	14	Number of days before a reminder is due that the colour will change to yellow
REMINDERS_YEL_HOURS	50	Number of Hours before a reminder is due that the colour will change to yellow
REMINDERS_YEL_KMS	1000	Number of Kilometers/Miles before a reminder is due that the colour will change to yellow

In the above example, reminders will turn when due in 5 days or less and when due in 14 days or less. The red colour will always override the yellow colour.

The same principal above can be applied to HOURS and KMS

Add or Edit Vehicle Reminder Settings

After changing the setting, press Enter on the keyboard to save, or change your selection.
